

## Bachelor of Science - Production Requirements

### **Bachelor of Science in Music (Music Producer)**

Candidates interested in the Bachelor of Science in Music – Music Producer program at McNally Smith College of Music should submit a demonstration recording of three pieces they have produced, arranged, and/or recorded. These three pieces should be selected for their stylistic contrast, musical interest, and technical and/or creative expression. Please describe your individual participation in each of these recordings.

McNally Smith will accept CDs or mp3s. Please label both the case and the CD **CLEARLY** with your name.

**Please be sure to send copies of these recordings and not the original masters, as they will not be returned.**

In addition, one of the requirements of the Music Producer degree is that the student must be a proficient musical performer. Therefore, the student must also audition for the department for their voice or instrument of choice. Please refer to the corresponding department's requirements regarding the audition.
